Washington, D.C. 20231

Sir:

This is in response to the Final Office Action in the above-referenced application mailed June 3, 2002. Please amend the application as follows:

IN THE CLAIMS:

Please amend the following claims to read as shown:

1. An electro-acoustic system for use with electronic sound-generating equipment, comprising:
an earmold molded to conform to and frictionally fit in a person's ear having a sound-conduction bore extending there through;
a sound-conducting tube having a passage with one end of the tubing connected to the earmold so that the passage is opposite the sound-conduction bore and, a curved portion adapted to extend along the person's head between the person's head and ear;
a speaker acoustically coupled to the other end of the sound-conduction tube for conducting sound into the passage;
an electrical cable having one end connected to the speaker for driving the speaker; and
an electrical plug connected to another end of the electrical cable for electrical connection
